

## Evaluation and Research Analyst – Job posting

McCreary Centre Society is seeking a skilled individual with strong community-based research and evaluation skills to support McCreary's independent and in-house evaluations.

The successful candidate will also support the production of community-friendly research reports of the BC Adolescent Health Survey (BC AHS).

Specific duties will include facilitating focus groups and conducting interviews with evaluation project participants. Duties will also include data entry and analysis of youth health research and evaluation data using SPSS for Windows to prepare research reports, presentations, and factsheets.

The ideal candidate will have previous evaluation experience, a minimum of two years of experience working with SPSS for Windows, and graduate level coursework in health or social science research, including statistics.

Salary: \$54,167 - \$56,333 per year, for 37.5 hours a week. Employees are entitled to health benefits upon completion of 6 months employment. Additional benefits include professional development and health and wellness funding, and an optional RRSP scheme.

We are committed to Truth and Reconciliation and to ensuring equity, diversity and inclusion in all aspects of our work. We actively encourage applications from members of groups with historical and/or current barriers to equity.

This position is initially funded for 12 months and may be extended.
